## Ricoh Ri100

### Your Custom Garment Printing Business Begins Here

The RICOH Ri 100 revolutionizes the world of direct-to-garment (DTG) printing. As the 2018 Consumer Electronics Show Innovation Awards Honoree, the Ri 100 is the most affordable, easy to use and portable DTG printer on the market. The Ri 100 is the perfect first step to launch your custom T-shirt printing business! No prior experience is necessary to create beautifully printed products safely and easily, in-house or on-the-go.

### Applications for customers looking for...

#### An All-In-One, Profitable Printer System

The RICOH Ri 100 all-in-one printer system prints images directly onto fabrics using state-of-the-art DTG technology with the lowest initial investment.

- Provide your customers with beautiful products in minutes
- Print event-specific custom t-shirts on demand - **take the Ri 100 everywhere!**
- Receive a bundle with your printer system that includes everything you need to **break even on your investment** before replacing ink

#### A World of Printing Possibilities

The RICOH Ri 100 adds value to your bottom line because of the multitude of products it can print on such as:

- T-shirts
- Pillowcases
- Tote Bags
- Infant Onesies
- Towels
- And much more!

The business opportunities with the Ri 100 are only limited by your imagination:

- Community events
- Sporting functions
- Fundraisers
- Retail stores
- Kiosks
- Company parties
- Trade shows
- Online stores

**With a low price and an easy-to-use design, the Ri 100 makes it easy to begin DTG printing right away. Since all printing is on-demand, you can fulfill even highly-customized orders quickly and efficiently.**

## The Comprehensive Direct-to-Garment Solution

#### Small Size Packs Big Opportunity

The RICOH Ri 100 can fit into a space as small as 15.7" wide x 27.5" deep, making it one of the smallest DTG printers. The printer and its finisher can be stacked to maximize functionality without sacrificing space.

#### High Quality Images & Products

Achieve superior prints thanks to Ricoh's inkjet technology, which prints directly onto the fabric. Preserve the look and feel of garments while still maintaining a high level of image vibrancy.

#### Easy Design Software

Ricoh Design Software lets you import and edit images before printing, with no specialized knowledge or skills required. You can even send prints from your smartphone with ease.

#### Low Price, Quick ROI

The RICOH Ri 100 is priced to get your business going. With a small initial investment, you can start to see returns right away. It's the perfect entry-level printer for your small to medium-sized, custom orders.

#### Safe and Effortless Technology

The Ri 100's intuitive design requires no prior experience to print and finish prints, with safety as a top priority. The inks adhere to the fabric safely and periodic maintenance is carried out through a simple process (automatic and semiautomatic).

##### Step 1

##### Choose the design

Use the accompanying software to choose the design. Set the printing mode based on the fabric used.

##### Step 2

##### Set fabric

Set the T-shirt or bag in the tray. Even beginners can accomplish this task with ease.

##### Step 3

##### Pre-press

Insert the tray into the finisher to smooth out creases.

##### Step 4

##### Print

Printing takes approximately two minutes. Just load and unload the tray – it is that easy.

##### Step 5

##### Fix the design

Use the finisher (with built in safety features) to fix the ink and lock in the design.
